Deadline for manuscript
submissions:

31 August 2025

Message from the Guest Editors

The Special Issue on "Intelligent Systems Design and Engineering Applications" for the International Conference on Intelligent Systems Design and Engineering Applications (ISDEA) (<https://www.isdea.org/>) aims to explore cutting-edge research and practical developments in this critical field. This issue will serve as a platform for researchers, engineers, and practitioners to share their latest findings, methodologies, and applications in the design and implementation of intelligent systems.

The ISDEA conference provides an ideal forum for discussing the latest advancements in this rapidly evolving domain. This Special Issue will primarily feature extended versions of selected papers presented at the ISDEA conference. However, we also welcome high-quality submissions from researchers and practitioners who have not presented at the conference but are working on relevant topics.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
